

Jambo - Africa

Geography Term 1

What should I already know?

- Locate the world's countries using maps to focus on Europe, (including the location of Russia) and North and South America, concentrating on their environmental regions, key physical and human characteristics, countries and major cities.
- Name and locate countries and cities of the United Kingdom, geographical regions and their identifying human and physical features (including hills, mountains, coasts and rivers), and land-use patterns; understanding how some of these aspects have changed over time.
- Identify the position and significance of latitude and longitude, the Prime/Greenwich Meridian and time zones (including day and night).
- Understand geographical similarities through the study of human and physical geography of a region of the United Kingdom and a region in a European country.

What am I going to learn? (Sticky knowledge)

- To identify countries and physical features in Africa using a map.
- Identify the position and significance of the Equator, Northern Hemisphere and Southern Hemisphere.
- Understand geographical similarities and differences through the study of human and physical geography of a region of the United Kingdom and a region of Kenya.
- To know and locate different climates in Africa.
